- Communication
- Leadership
- Organisational
- Punctuality
- Critical Thinking
- Problem-Solving
- Product Knowledge
- Flexibility
- Teamwork

PROFILE

I am a 19-year-old Computer Science student at the University of Surrey with strong skills in Python and Java, and a proven ability to learn and adapt quickly. I am seeking a local role alongside my studies where I can bring a professional attitude, reliability, and strong problem-solving skills to the team. My academic work has strengthened my analytical thinking, attention to detail, and ability to work independently or collaboratively, and I am eager to apply these strengths to deliver excellent results in a professional setting.

WORK EXPERIENCE

TUTOR
Ali's Academy
May 2025 - present

- Develop customised lesson plans to meet individual student needs and learning styles
- Explain complex concepts in clear, easy-to-understand terms to improve comprehension
- Track and assess student progress, adjusting teaching strategies as needed
- Prepare and source learning materials to support lessons
- Provide constructive feedback to help students build skills and confidence
- Communicate effectively with students (and parents, if applicable) to ensure learning goals are met
- Maintain organised records of lessons, assignments, and progress reports
